

## Testimonial for J&S Piering & Civil Works

I have personally been working with J&S Piering & Civil Works from July 2008. Through this time, J&S have worked with myself at Deicorp Constructions Pty Ltd and Ceerose Pty Ltd, who are both medium density apartment builders. J&S have provided quality works in Demolition, Bulk Excavation, Detail Excavation, Piering Works, Labour Hire and Civil Works and have always proven to be a success. They have always proven to be reliable and experienced in their works. Their work is relatively quick and defined. J&S knowledge and understanding in their field allows for any arising issues to be solved in a matter of seconds.

I will definitely recommend J&S Piering & Civil Works to any builder / developer. No project is too small or too big for J&S as they have the right equipment and the right people for the works.
